NORWICH OFFICERS WILL ATTEND INSTRUCTION CAMP Pay According to Grade Will Be Re-ceived for The Work.

Figualization for State and al of \$17,390 000 Added in al of \$17,390 000 Added in the adjutant general calls the attention of officers of the coast artillery corps to an order from headquarters of the artillery district of New London, at Foot Wright, issued by Lieut.-Colonel Rafferty, U. S. A., announcing a camp of instruction for coast artillery officers at Foot Terry, June 25 to July I. Adjutant General George M. Cole says after reproducing Colonel Rafferty's order: "It is desirable that all officers attend this camp of instruction, and in order that proper arrangements when requirement af the statute. This volum requirement af the statute. This voluntary increase by so many towns is particularly gratifying, and in nearly every case has exceeded materially the previous addition by the board of equalization. Several other towns have a much larger list than last year, but their officials do not claim that the property is on the statutory basis.

The additions which the board has made to the lists has been done after considering definite information from the taxing officials, the results of a personal investigation, or other competent testimony. This action has not been taken so much to increase the total grand list of the state as to prevent so far as possible the penalizing of those towns which have voluntarily placed their lists on a fair value basis.

As heretofore, it has been necessary to make some additions of an acknowledged lower percentage of assessment on certain special property, although an effort is made to keep the general property on a fair basis.

Mrs, Willard Clarke, who was ill in her bedrom in a tenement of the Fournier block at 15 and 17 Tilley street, New London, was taken out by firemen Friday morning, when smoke from a fire in the basement filled the sleeping room and the hallway. Mrs. Clarke and two children were alone in the bedroom. The firemen could not take her through the smoke filled hallway, way, so it was necessary to hand her way, so it was necessary to band her through a window and lower her down to the outstretched arms of firemen er list, fewer inequalities, a lower tax rate, and a seasonable conformity with the statutory provision which requires property to be listed at its fair market the children sent in an alarm.

It is hoped that a large number of the other towns will decide that it is to their advantage to follow the good example set by the towns that have recently revalued.

Towns to whose lists no additions are made, but where additions were made in 1909, are:

New London county—Lebanon, Waterford.

Windham county—Ashford, Hampton, Scotland.
